Your gas proposal

HVAC manufacturer - estimated operating profile

Tulsa / 12 months / 2027-01 to 2027-12

PRICE / USD PER MMBtu

$3.0171

Partial subtotal

The estimate is incomplete. Confirm outstanding items before agreement.

Proposed monthly blocks / MMBtu	Fixed-block subtotal / USD
6,588.0	$19,876.64

01 / A clear agreement

You buy fixed monthly gas blocks. Usage above or below each block settles at that month's regional index. The fixed-block subtotal is price times the blocks; it is not the full customer bill.

Utility delivery, transportation, taxes and any unconfirmed charges are outside this subtotal. Confirm the final included items and the delivery point before commitment.

02 / Terms to confirm

Term	Status
Customer payment after month-end invoice	Pending
Quote valid until	Pending
Market valuation date	2026-10-29
Delivery point and matching regional index	Pending
Payment terms and protection	Pending

03 / What happens next

Confirm the monthly schedule, payment arrangements, final price and delivery terms. This is an estimated proposal for discussion, not an executable supplier quote.

Estimated operating profile. Demand and weather assumptions need checking against customer records. The regional price reference must match the agreed delivery route. Internal names and source notes are omitted.

Proposed monthly blocks

Fixed quantities for each month. Differences between actual use and these blocks settle at the matching regional index.

Delivery month	Proposed block / MMBtu
2027-01	1,057.2
2027-02	870.4
2027-03	621.1
2027-04	463.5
2027-05	338.8
2027-06	305.1
2027-07	305.0
2027-08	305.0
2027-09	307.3
2027-10	444.2
2027-11	667.6
2027-12	902.7

MMBtu is a unit of gas energy. Displayed quantities are rounded; calculations use full precision. This schedule is subject to the final agreement.
